# DUAL HIGHER EDUCATION WITH A BRIGHT FUTURE

Theory and practice – the key to success

## **BADEN-WUERTTENBERG** **COOPERATIVE STATE UNIVERSITY (DHBW)**

Baden-Wuerttemberg Cooperative State University is the first higher education institution in Germany to integrate academic studies with workplace training. Founded on 1 March 2009, it is based on the successful “dual study” concept that was pioneered by the Berufsakademie (University of Cooperative Education) more than 40 years ago.

With around 34,000 undergraduates, more than 9,000 partner companies and institutions and more than 125,000 alumni, Baden-Wuerttemberg Cooperative State University (DHBW) counts as one of the largest universities in the Federal State of Baden-Wuerttemberg.

Throughout its various locations, DHBW offers a wide range of nationally and internationally accredited undergraduate study programs in the field of business, engineering and social work. In addition, the university offers postgraduate study programs with an integrated on-the-job training.

## THE DUAL STUDY CONCEPT OF DHBW

Innovative study concept of DHBW with alternating theoretical and practical phases is unique in Germany. Students are not only taught theoretical knowledge, but also learn to apply this knowledge in practice.

### UNIQUE FEATURES OF THE DUAL STUDY CONCEPT OF DHBW:

- ▶ DHBW closely cooperates with more than 9,000 companies and social institutions all over Germany – the so-called corporate partners.
- ▶ Corporate partners select their students themselves and are responsible for the workplace training
- ▶ In the course of their three-year studies, students regularly switch between the university and the company/social institution that provides the workplace training.
- ▶ The practice-integrated concept ensures that DHBW graduates are highly employable. A very large percentage is taken on by the corporate partners

## **BENEFITS OF THE DUAL STUDY CONCEPT**

### **FINANCIAL INDEPENDENCE**

Students at the Baden-Wuerttemberg Cooperative State University are financially independent from day one: As employees of the company or institution that provides their workplace training, they receive a monthly remuneration for the duration of their studies.

### **VARIED AND INTENSIVE STUDIES**

All degree programs offered at DHBW take three years. The phases of academic studies and workplace training alternate in regular three-month intervals, ensuring both pace and variety throughout the program.

### **LECTURERS WITH UP-TO-DATE KNOWLEDGE**

Courses are taught by full-time lecturers of the Baden-Wuerttemberg Cooperative State University, guest lecturers of other universities and colleges, as well as freelance trainers, consultants and executives who contribute cutting-edge knowledge and expertise from their professional fields.

### **SMALL CLASSES**

Small classes of no more than 30 students ensure close supervision and create conditions that encourage motivation, contributing to successful outcomes.

## **RECOGNIZED QUALITY AS THE KEY TO SUCCESS**

### **NATIONAL AND INTERNATIONAL RECOGNITION**

In 2006, the Central Agency for Evaluation and Accreditation (CAEA/ZEVA) accredited all degree programs and in July 2008 validated them as intensive degree programs with 210 ECTS points. In 2011, DHBW was the first university in Baden-Wuerttemberg that obtained the system accreditation by the Central Evaluation and Accreditation Agency (ZEVA).

### **INTERNATIONAL EXPERIENCE AND OUTLOOK**

Baden-Wuerttemberg Cooperative State University maintains numerous contacts with universities all over the world. This makes it possible for most of the degree programs to include a period spent abroad.

### **EXCELLENT EMPLOYMENT OPPORTUNITIES**

Thanks to their sound knowledge and practical work experience, students enjoy excellent prospects on the job market. In the last few years, more than 90 per cent of the DHBW graduates received a job placement immediately after completion of their studies.

“With a qualification that combines academic theory with practical know-how, our graduates are ideally prepared for a successful start of their careers.”

Professor Reinhold R. Geilsdörfer, President
